**Github:** <https://github.com/TristanW63>

As a Full Stack Web Developer with a passion for Front-end development based in Nashville, I have completed a rigorous boot camp program through Vanderbilt University and gained strong proficiency in a variety of object-oriented programming languages and frameworks including React.js, Node.js, JavaScript, CSS, HTML5, Express.js, Bootstrap, Git, NoSQL, MongoDB, and GraphQL, SQL, JQuery. I have worked on various projects that demonstrate my strong problem-solving skills and ability to work collaboratively in a team to create web applications.

## PROJECTS

**Townie:** [Townie.com](https://Townie.com) **Repository:** [github.com/TristanW63/Townie-2.0](https://github.com/TristanW63/Townie-2.0)

Single-page MERN stack application

A social media platform with a responsive design that allows users to share their personal thoughts and engage with others through posting, commenting, and liking. This project was built by first making wireframes then using React, Bootstrap and HTML to build the UI for better user experience, MongoDB, and GraphQL, Node.js were used for the back-end.

**Dadjokes:** [DadJoke.com](https://DadJoke.com) **Repository:** [github.com/TristanW63/DadJokesGalore](https://github.com/TristanW63/DadJokesGalore)

Full-Stack web application

A platform for dad jokes where users can like jokes posted by others. This project utilized object oriented programming such as JavaScript to connect the backend (MySQL, Sequelize, Node, and Express) to the frontend (HTML, CSS, HandleBars).

**Randamu:** [Randamu.com](https://Randamu.com) | **Repository:** [github.com/TristanW63/Randamu](https://github.com/TristanW63/Randamu)

Client-side application

This project was built for users to input their preferred drink and food category on the landing page, and the app displays five random recipes for drinks and food. It was built by using collaboration skills, HTML, CSS, JavaScript, jQuery, JSON, Materialize, and API's.

## Professional Experience

**TOUR GUIDE** Joy Ride, Nashville, April 2021 to Present

Utilized time management, interpersonal and excellent communication, organization, and customer service skills to create a friendly and engaging tour.

**VALET MANAGER** PMC, Nashville, TN, February 2021 to April 2021

Coordinated staffing schedules to ensure adequate coverage based on business needs. Mentored new and existing employees to boost morale and productivity. Demonstrated problem-solving, leadership, and decision-making skills in a fast-paced environment.

**Education:** A 24-week intensive program from Vanderbilt University focused on gaining technical programming skills in HTML5, CSS3, Javascript, GraphQL, Bootstrap, MongoDB, Node.js, MySQL, MongoDB, JQuery, JSON, Express, ES6 and React.
